Customer Service Week Lost Package

One of your top customers has just called to say that a very important delivery did not arrive on time. Please find the customer's package before the situation gets worse.

Your objective is to move from the lost package square (upper left-hand corner) to the satisfied customer square (lower right-hand corner). You may move one square at a time, but you may only move to a square that has a number greater than the square you are on. You may also move if the square is half the number of the square you are on. You may not move diagonally.

1	0	1	5	2	5	9
6	3	5	6	3	8	2
2	7	3	1	4	3	5
9	5	4	8	6	6	1
5	6	3	2	1	7	8
3	1	5	6	5	2	1
8	3	9	3	8	4	3
7	4	2	7	6	5	9
6	9	1	5	3	2	1
3	4	8	2	8	4	6
